RE: Secondary Oil/Water Separator Pit

Dear Mr. Arceneaux:

This is to acknowledge receipt of your letter dated December 21, 1983 in which you advise that the secondary oil/water separator pit has been replaced with an above ground steel tank separator, and receipt of the test results on samples taken from the pit bottom.

We have reviewed the test results on the pit bottom and wish to advise that we have no objections to your plan to close this pit by back filling.

Sincerely,

James H. Brent
